## Project Horizon Launch

Our biggest change initiative of 2026 is live.

### TEAM & CHANGE UPDATES

## Change Champion Network Expands

The WAM Change Champion network has grown to 45 members across six departments. Champions completed their Q2 certification and are now leading adoption workshops for the new asset tracking platform. If you're interested in joining, reach out to your department lead or visit the SharePoint hub.

### FIELD TEAM ROAD SHOWS

## Road Shows Bring System Updates to the Field

This month, WAM hosted regional road shows across four service areas, giving field technicians a first look at upcoming system updates and new handheld equipment. Teams got hands-on time with the upgraded devices, walked through refreshed mobile workflows, and provided direct feedback to the development team. Road show materials and session recordings are available on the SharePoint Events page.

### WHAT'S NEXT FOR WAM?

## Project Meridian: Phase 2 Readiness

Phase 2 of Project Meridian begins July 15. This phase introduces automated workflow routing and updated approval hierarchies. All impacted teams will receive tailored communications and hands-on training sessions throughout July. Check the SharePoint timeline for key milestones.
